

Fragile X International

Supporting Projects, Partnerships and Collaborations

From time to time Fragile X International is approached by researchers or other persons who wish us to collaborate on a project or support a scheme. We will consider being a partner to a project. This will be assessed on a case-by-case basis and can include, for example, being part of the proposal at the outset and/or writing letters of support for researchers applying for funding; supplying family members for talks to your institution/company; working with film/TV to provide Fragile X input and/or actors; etc.

First, please tell us about your project:

Why would you like us to participate?

What do you need from Fragile X International ?

If applicable, is there scope for payment for our time or services?

Your contact details:

Name	
Organisation	
Address	
Email	
Phone number	

We will consider all projects and get back to you if we have questions. If we agree to work with you, please be aware that we require feedback at each stage of the project, i.e. we need to be kept 'in the loop.' If yours is a research project, we will ask you to fill in our Research Proposal form with as much information as you have at the time. If your project involves collection or storage of data, we will ask you to send us your DPIA or to fill in our DPIA.

Please be advised we have an Ethical Working Policy and abide by these principles.

In all our decisions, we seek to safeguard those with Fragile X Syndrome and those living with Fragile X Premutation Associated Conditions. Their well-being is at the heart of all we do.
